**Q. DOES SYNIVERSE INTEND TO OFFER PREPAID DEBIT CARD SERVICES IN SOUTH CAROLINA?**

A. Not at this time. Syniverse is aware of the Commission's \$5000 bond or certificate of deposit requirement associated with prepaid debit card services, and will file such an instrument with the Commission should Syniverse decide to offer these services later.

**Q. WILL SYNIVERSE HAVE AN OFFICE IN SOUTH CAROLINA?**

A. Not at this time. For this reason, Syniverse is requesting a waiver from S.C. Reg. 103-610 and asks that the company be allowed to maintain its books and records in its headquarters location in Tampa, Florida. In the event that the Commission finds it necessary to review Syniverse's books, this information will be provided upon request to the Commission or Syniverse will bear the expense of travel for the Commission staff to examine the books and records located outside of South Carolina.

**Q. DOES SYNIVERSE SEEK ANY OTHER WAIVERS OF COMMISSION REGULATIONS?**

A. Yes. Syniverse requests that it be exempt from any financial recording rules or regulations that require a carrier to maintain its financial records in conformance with the Uniform System of Accounts ("USOA"). Syniverse maintains its records using Generally Accepted Accounting Principles ("GAAP"). Syniverse also requests that it not be required to publish local exchange directories. Syniverse will make arrangements with the incumbent LECs whereby the names of Syniverse's customers will be included in the directories published and distributed by the incumbent LECs. Syniverse is also requesting a waiver from the requirement to file an operating area map because the company will be operating throughout the state in all areas not served by BellSouth.

1           **Q.    WHAT REGULATORY TREATMENT HAS SYNIVERSE SOUGHT IN**  
2           **THIS APPLICATION?**

3

4           A.    Syniverse requests flexible regulation for its local telecommunications services as  
5           the Commission first granted in Docket Number 97-467-C, Order No. 980165.

6

7           **Q.    IF GRANTED CERTIFICATION TO PROVIDE COMPETITIVE LOCAL**  
8           **EXCHANGE TELECOMMUNICATIONS SERVICES IN SOUTH CAROLINA, WILL**  
9           **SYNIVERSE ABIDE BY THE RULES AND REGULATIONS THIS COMMISSION, AS**  
10          **NOW ADOPTED OR THAT MAY BE ADOPTED IN THE FUTURE?**

11

12          A.    Yes we will.

13

14          **Q.    PLEASE DESCRIBE THE PUBLIC INTEREST BENEFITS ASSOCIATED**  
15          **WITH SYNIVERSE'S PROPOSED OFFERINGS IN SOUTH CAROLINA.**

16

17          A.    Syniverse believes its Application will further the public interest by expanding the  
18          availability of competitive local telecommunications services in the State of South Carolina.  
19          Syniverse will add to the array of choices South Carolina carriers, and therefore consumers, now  
20          have in local telecommunications. Increased competition and choice will also serve to advance  
21          the introduction of new technologies and contribute to the telecommunications infrastructure of  
22          South Carolina.

23

24          **Q.    HAVE YOU DISCUSSED THE APPLICATION WITH THE OFFICE OF**  
25          **REGULATORY STAFF ("ORS")?**

26          A.    Yes. As a result we have eliminated from the amended application Syniverse's  
27          request of a waiver from reporting requirements. We have also incorporated all of the changes  
28          requested by the ORS in Syniverse's proposed tariff. A revised tariff was provided to Tom Allen  
29          of the ORS staff. On January 18, 2007, Mr. Allen informed Syniverse's counsel that all of his

1 changes had been incorporated into the tariff. A copy of the revised tariff is attached as Exhibit  
2 2 to this testimony.

3

4 **Q. DOES THIS CONCLUDE YOUR TESTIMONY?**

5 **A. Yes it does.**

**4. Description of Applicant:**

Syniverse is a corporation organized under the laws of the state of Delaware on January 8, 2002. The initial corporate name was TSI Telecommunication Network Services, Inc.. The Attached as **Exhibit A** is the Applicant's Articles of Incorporation. Also included as **Exhibit B** is the Certificate of Authority to transact business as a foreign corporation in South Carolina.

**5. Customer Service:**

Syniverse toll-free number for customer inquiries is (800) 892-2888. It is answered 24-hours per day/7 days per week. In addition, customers may contact the company in writing at the headquarters address and via email at david.Robinson@syniverse.com. The toll free number will be printed on customer's statements.

**6. Financial, Managerial and Technical Ability:**

Syniverse is financially qualified to provide competitive local exchange services in South Carolina. Syniverse is a public company traded on the New York Stock Exchange (SVR). Its most recent 10-K is included as **Exhibit C**. In particular, Syniverse has access to the financing and capital necessary to conduct its telecommunications operations as specified in this application. Syniverse's combined net income was \$328.9 million (USD) for the year ended December 31, 2006.

Syniverse has extensive telecommunications and managerial experience. Biographies of the Applicant's officers and directors are attached hereto as **Exhibit D**. Syniverse holds a certificate of public convenience and necessity to provide private line telecommunications services in South Carolina granted by the Commission by Order No.

2004-39 in Docket No. 2003-290-C, a copy of which is attached hereto as Exhibit E. The Commission issued an Order Approving Change of Company Name on December 15, 2006 in Docket No. 2003-290-C (Order No. 2006-743) to reflect the name change to Syniverse from the company's initial corporate name. Syniverse has authority to offer telecommunications services in thirty-six (36) states and authority to offer competitive local exchange services in eighteen (18) of those. Syniverse has not been denied requested certification in any jurisdiction, nor has it had a permit, license, or certificate revoked by any authority.

**7. Designation of Services and Proposed Service Territory:**

Syniverse intends to provide competitive local exchange access services, including dedicated transport, local numbering resources, resold switching services and facilities-based signaling in the State of South Carolina. Syniverse will offer local numbering resources to enable a "remote call forwarding" type telecommunication service marketed to Tier 2 or Tier 3 carriers – allowing these rural and small carriers to offer their business customers the ability to reach customers in several larger urban markets. Syniverse proposes to offer resold and facilities-based local telecommunications services exclusively to other certificated carriers and will not offer services to retail end-user customers. Syniverse will operate only in those areas served by BellSouth Telecommunications/AT&T. Applicant's proposed tariff is included as Exhibit F.

**8. Public Interest and Need:**

Approval of this application and Applicant's proposed tariff will serve the public interest by increasing competition for local telecommunications services. Increased competition benefits consumers by providing choice, improved service quality and price competition.

The objective of the Telecommunications Act of 1996 was to foster competition in the provision of local telecommunications services. This authority sought in this application is consistent with the objective of the Telecommunications Act of 1996.

The granting of Applicant's application is consistent with S.C. Code Ann. § 58-9-280(B), as amended by 1996 Act No. 354, and, in that regarding Applicant makes the following representations to the Commission:

- A. Applicant possesses the technical, financial, and managerial resources sufficient to provide the services requested;
- B. The provision of local service by Applicant will not adversely impact the availability of affordable local exchange service;
- C. Applicant's local services will meet the service standards required by the Commission;
- D. Applicant, to the extent it is required to do so by the Commission, will participate in the support of universally available telephone service at affordable rates; and,
- E. The provision of local service by Applicant will not adversely impact the public interest.

Syniverse will seek to enter into a stipulation with the South Carolina Telephone Coalition with respect to providing service in rural areas. Syniverse is not asking the Commission to make a finding at this time regarding whether competition is in the public interest for rural areas.

**9. Waivers and Regulatory Compliance:**

Applicant requests that the Commission grant it a waiver of those regulatory requirements inapplicable to competitive local service providers. Such rules are not appropriate for competitive providers and constitute an economic barrier to entry into the local exchange market.

- A. **Financial Recordkeeping:** Applicant requests that it be exempt from any financial recording rules or regulations that require a carrier to maintain its financial records in conformance with the Uniform System of Accounts ("USOA"). As a competitive provider, Applicant currently maintains its books and records in accordance with Generally Accepted Accounting Principles ("GAAP"). GAAP is used extensively by competitive local exchange carriers and interexchange carriers. Since Applicant utilizes GAAP, the Commission will have a reliable method by which to evaluate Applicant's operations. Therefore, Applicant requests to be exempt from any and all USOA requirements of the Commission.
- B. **Maintenance of Books and Records:** In addition, Applicant requests a waiver of S.C. Reg. 103-610, and to be allowed to maintain its books and records at its headquarters location in Tampa, Florida. In the event that the Commission finds it necessary to review Applicant's books, this information will be provided upon request to the Commission or Applicant will bear the expense of travel for the Commission staff to examine the books and records located outside of South Carolina.
- C. **Local Exchange Directories/Operating Map:** Applicant requests that it not be required to publish local exchange directories since it will serve carriers only and not retail end-user customers. Applicant also requests that it not be required to file an operating area map since Syniverse will operate within the service area of BellSouth.

Applicant reserves the right to seek any regulatory waivers which may be required for Applicant to compete effectively within the states' local exchange and resale market.

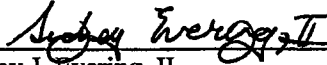

**10. Flexible Regulation of Local Exchange Services:**

In Docket Number 97-467-C, the Commission approved a rate structure that incorporated maximum rate levels with the flexibility for adjustment below the maximum rate levels. The Commission determined that local tariff filings would be presumed valid upon filing, subject to the Commission's right within thirty days to institute an investigation of a tariff filing and that any such tariff filings would be subject to the same monitoring process as similarly situated competitive local exchange carriers. Applicant submits that as a local exchange competitor it should be subject to regulatory constraints no greater than those imposed in the above mentioned docket. The Applicant requests that its local exchange service tariff filings be regulated under this form of flexible regulation.

**11. Conclusion:**

This Application demonstrates that the Company possesses the technical, financial and managerial resources to provide local exchange service within the State of South Carolina. Furthermore, granting this Application will promote the public interest by increasing the level of competition in the South Carolina telecommunications market. Ultimately, competition will compel all telecommunications service providers to operate more efficiently and pass the resulting costs savings on to consumers. In addition, as a result of competition, the overall quality of service will improve.

Respectfully submitted,

**TARIFF FORMAT**

- A. **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between Page 14 and 15 would be 14.1.
- B. **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4<sup>th</sup> revised Page 14 cancels the 3<sup>rd</sup> revised Page 14.
- C. **Paragraph Numbering Sequence** - There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2  
2.1  
2.1.1  
2.1.1.1
- D. **Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. An asterisk designates all revisions made in a given filing (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

### 3.3 Syniverse Signaling

This service allows the customer to receive signals for call set-up out of band. This option is available via Feature Group D truck groups purchased by Syniverse. This option requires the establishment of a CCS7 Signaling Connections and CCS7 Signaling Terminations between the customer's signaling point of interface and the Company-designated Signal Transfer Point (STP). A minimum of one pair of one quad of CCS7 Connections and Terminations is required.

#### 3.3.1 CALL RELATED DATABASES AND TCAP MESSAGE TRANSMISSION.

Database services provide customers network intelligence to deliver TCAP messages to end users. This service allows customers to deliver TCAP messages and provides for the transmission of information corresponding to TIA Interim Standard 41 (Sub-systems 005-010) over a customer's SS7 Signaling Connection. TCAP Messages will be routed according to originating and destination point codes provided by the customer. This option requires the utilization of SS7 Signaling Connections and SS7 Signaling Terminations between the customer's signaling point of interface and each of the Company's Local Signal Transfer Points (STPs) within the LATA. This service is available where facilities and switching capability are available.
